About Yachts

Yacht is a recreational boat. Yacht lengths generally range from 40 feet (13m) up to hundreds of feet. A Mega Yacht is generally above 100 feet and a Super Yacht is generally refers to any Yacht over 200 feet. This size is small in relation to typical cruise liners or oil tankers. Thus Wedding banquets are NOT possible to be held on a Yacht! (there are ferries and cruise liners in the market for such a scale)
